EDUCATION

URC Palaniammal Matric Higher Secondary School	2019-2020
SSLC - 84%	
URC Palaniammal Matric Higher Secondary School	2021-2022
HSC - 96%	
KPR Institute of Engineering and Technology	2022-2026
B.E Computer Science and Engineering	
CGPA - 8.58	

PROJECT

Sentiment Analysis

[Link](#)

- Performed sentiment analysis on WhatsApp group chat data using NLTK's VADER model. Preprocessed text by tokenizing, iterating stopwords, and classifying word sentiments as positive, negative, or neutral. Visualized insights through pie charts, bar graphs, and histograms using Matplotlib

Airline Ticket Price Prediction

[Link](#)

- Developed a Flask web application to predict flight fares using Linear Regression. Processed and encoded categorical data from an Excel dataset with Pandas and scikit-learn. Enabled user input for airline, source, and destination to estimate fare in real time

Churn Modelling

[Link](#)

- Developed a Flask web app to predict customer churn using a trained ML model, with feature scaling via StandardScaler and real-time results displayed through frontend technology.

EXPERIENCE

Clustervise - Machine Learning

Nov 2024 - Jan 2025

- As a Machine Learning Engineering Intern at Clustervise, I'm developing an AI-powered Bill of Materials (BOM) system while contributing to real-time projects. I'm also gaining hands-on experience across backend, frontend, and database technologies to build end-to-end intelligent solutions.

Codsoft - Machine Learning

Jan 2024 - Feb 2024

- Successfully completed three hands-on machine learning projects, focusing on data pre-processing, model development, and performance optimization.

SKILLS

Programming Languages - Java, Python, HTML, CSS

Libraries - Pandas, Numpy, Matplotlib, OpenCv

Tools - Canva, VS Code, Google Colab, Excel

Database - SQL

CERTIFICATIONS

GenAi powered data Analytics | TCS

Excel | Infosys

Data Science | Infosys

Engineering Graphics and Design | L&T Edutech

Data Analytics with Python | NPTEL

ACHEIVEMENTS

Ideathon

- Secured 1st place with a cash prize in the Ideathon conducted at my college for proposing an NLP-based project that translates historic inscriptions into human-readable languages.

Hackathon

- Awarded runner-up for the project Silent Syntax, a machine learning-based sign language detection system.

Web Master - ACM W

- Managed and maintained the ACM-W website, hosted events, and ensured seamless online operations for the chapters activities.

Hackathon

- Participated in the Smart India Hackathon for two rounds with a project focused on travel and tourism, developing an app that caters to all the needs of tourists.

Hackathon

- Participated in the Innovesense Hackathon at my college with an NLP-based project that translates inscriptions into human-readable and native language text.

Let's Dance

- Awarded runner-up trophy for intra college dance competition.
-
